### NOTICE.

We wish every JOURNAL subscriber to remember that the present management did not purchase the old subscription accounts, when we bought the JOURNAL, and any effort to collect the same, does not come from us. C. B. KIRTLAND PUB. CO.

### CITY AND COUNTY.

Now let's do something for our country. The P. F. L. club danced at the Brunswick last night.

"The Damreplicants, Democrats, Swedes and niggers" did it.

Several old fashioned Halloween parties were indulged in Saturday evening.

And now let all political differences be forgotten, and business be the order of the day.

Let us prepare our hearts and stomachs for Thanksgiving Day, which comes on the 28.

The wholesale fruit house of E. F. Goodrich & Steele has been moved to the K. of P. building.

Charley Wilmarth has gone to Quanah, Tex., to superintend the construction of a plaster mill.

The Horticultural society met on Saturday and concluded to hold no more meetings till January.

Now let's have Jerry Simpson for one night to preach the funeral sermon. Text, "Them fellers."

No less than 700,000 mad dogs have been killed by the police of this city since last spring, and the end is not yet.

E. W. Pike returned home Friday from a brief sojourn in Old Mexico, and some of the border states and territories.

If anyone wishes to acquire a sarcastic style they should study the baking powder advertisements in lieu of text books.

The Wesleyan addition exhibited the most indications of visitations from the Imps, brownies, goblins, etc., on Saturday night.

Landlord Jennings of the Monteur hotel received notice the other day that his pension had been increased from \$5 to \$12 per month.

Some of the women folks of this city are making an effort to organize a Sapphira club as an off set to the Ananias club of Topeka.

Senator Mohler has returned home; in time to enjoy the victory but not to exercise that glorious prerogative, the right to vote.

The father of Judge C. E. Lamkin has returned from Washington where he has been sojourning for some time, and will make his home in Salina.

Ed. Lot's team that draws his ice wagon ran away Monday. A man who would deliver ice on a day like Monday deserves punishment of some kind.

Dr. Jenny received a neat membership badge the other day. It signifies that the holder is a member of the American public health association.

Both the senior and junior organs of populism were late in getting out last week. Probably reserving their fire till they could see the whites in the enemy's eyes.

Rev. F. D. Baker was too ill to fill his pulpit last Sunday, and Dr. Aaron Schuyler preached in his stead. In the evening a missionary meeting was held.

A state convention will be held in this city on November 30 and December 1 and 2 to organize a state society in the interest of the observance of the American Sabbath. All churches and other societies favoring the continuance of the Sabbath are requested to send delegates.

No street in the city has made more substantial improvements this year than Park street. Several new dwelling houses adorn the street and the stone is on the ground and the stakes driven for a third. The whole second ward has been spreading herself this season, for that matter. Look at Judge Hamilton's new house and the sanitarium buildings, for instance.

At the Clay county Mo., court last week the case of the state against James Crants was called and a continuance granted to the next term, which comes in about five months. The defense expects to prove an alibi, and its principal witness will Fessler, of this city, could not be found at the time. It is said that a certain man and his wife are also willing to testify that they were the ones who were quarreling on the train.

There is no announcement that gives greater general satisfaction to the general public than the one that C. G. Wilmarth has been appointed superintendent of construction of the government building in this city. Mr. Wilmarth is a competent man as shown by his work on the opera house and other buildings of this city. Besides there is some satisfaction in the assurance that "home talent" is recognized in this great work. We congratulate our friend Charley on his good fortune and the government in making so excellent a choice.

A drive through the city reveals the fact that not less than a dozen houses costing at the least calculation \$1500 have been erected in Salina this year so far. Added to this the paper mill, the improvements in the opera house, and the completion of the K. P. building and you have figures that in former days would have inaugurated a boom of huge proportions. A little later we shall try to get together the building statistics of the year, and a review of the improvements made in a good long article that will do to send "back east."

Not to be behind any town in the state, somebody has entered a protest against the pictures announcing the bald-headed show at the opera house to-night. A year ago last summer one of the rankest shows that ever traveled came along and exhibited its nakedness in Coaster park, but nobody entered a protest. Instead of doing that the manager of the bused concern was taken in and given the privilege of imposing upon a large number of Fourth of July visitors. Shows of this kind should keep a blank sheet over their bills with a sign on the outside, "Don't look under this sheet," and then sensitive people would not receive such a shock. But a large number of those who are so loud in their denunciation of the bills will go to the show, all the same—probably in order to give their "moral sensitivities" another chance to be shocked.

The campaign just closed was the more thorough and aggressive than the one last fall on the part of the Alliance. On the part of the Republicans not very much was done except to keep track of the other fellows. The reason for this apparent apathy on the part of the Republicans is that there was not enough at stake to warrant the spending of money necessary to conduct a brass band campaign. A great deal was done by the Republicans, however, in the line of personal work for the candidates and their friends. In the people's party any 16 year old boy easily outclasses John Sherman as a financier and statesman, and this accounts for the plethora of orators in their ranks. When a man gets full of anything and the pressure becomes too great there must be an evacuation, in the very nature of things. Amongst the Republicans there was no little caution, laziness and work done on the quiet.

There is a general desire among the patrons of the Solomon Branch of the U. P. to have the passenger train run to Salina. As it is now arranged passengers for Salina and the McPherson and Lincoln branches must wait at Solomon over four hours or take the Santa Fe or Rock Island. At present it is impossible to make the trip to Salina and return in one day from any point on this branch. It appears to us to be a short sighted policy to force its patrons to take service upon a rival and competing road, as the U. P. now does. The additional expense would be several times compensated for in increased travel and a saving of fares paid to the passenger. If the train could be run through to Salina the mail and express facilities would be greatly increased and the merchants along the branch brought into much closer relations with Salina wholesale houses. As it is we can get an answer to letters sent to Kansas City as soon as those sent to Salina. Let us have quick connection over a continuous line to Salina and it will only be a short time when the train will run from Beloit to McPherson, for we are confident when once tried it will never be relinquished. The patrons of the branch demand this accommodation and stand ready to make this branch still better paying if their wishes are respected.—Delphos Republican.

In the Fifth District. The telegraph reports indicate that the Fifth District has gone Republican by about 2000. The Republicans gained everywhere except in Marshall county where the Alliance gained about 300.

Along the line of the U. P. West the Republican ticket was successful from here to Wallace county. The indications are that only here and there an Alliance officer is elected, and that on account of personal popularity and not on account of politics.

In the Eighth Judicial district, comprising Geary, Dickinson and Morris counties, Humphrey is elected over Nicholson, the "bridge burner," by a handsome majority. In the twenty-fifth district, McPherson, Marion and Chase, Lucien Earle has defeated Doster, the author of the idea that the user's rights are greater than those of the owner, and he is buried beneath a majority of 600, if not more. In the state at large the Republican victory is pronounced and great.

A New Over the Spout. "To the victors belong the spoils," is an aphorism attributed to that eminent saint of Democracy, Andrew Jackson. Just now an effort is being made in this city to see what constitutes a fair "divvy" of the plunder. Last January the commissioners awarded the contract for doing the county printing to the Union and Herald, the senior and junior organs of the local reform party. At the time of the award the Union did not possess enough type to set up the six list and other legal advertisements, and in order to save the expense of buying the material necessary, it entered into an agreement with the junior organ, the gist of which was that the Herald was to have 60 per cent of the publication fees. All went well until the tax list came out, when on figuring up the amount of the Herald's "rake off" came a serious rupture between Mr. Honeywell and the publisher of the junior organ. The latter, we believe, discounted the former's intelligence, in divers uncomplimentary and ungentlemanly remarks. The upshot of the matter is that Harry C. Tobey, of the junior organ has sued the official organ of the Alliance for over \$47. The case came up for trial last week, but for political reasons was postponed until after election. Tobey has garnished all the local advertising patrons of the Union and the chairman of the popular committee, who pays for the election tickets printed by the Union.

Obituary. Mrs. Bessie Martin Bauman was born in Dary county, Ireland, November 9th, 1859, and died in Saline county, Kansas, October 26th, 1891, aged 31 years, 11 months and 17 days. Deceased came to this country with her parents at twelve years of age, and was married to William Bauman January 10th, 1884. In early life she united into the Presbyterian church, though of late years she was a member of the M. E. church. She was always a consistent follower of Christ, expressing faith in him shortly before her death. About two years ago she met with an accident in Salina from which she never fully recovered, and from the effects of which she suffered much and finally died. Mrs. Bauman was highly esteemed by all who knew her for her many excellent qualities of mind and heart. On Wednesday the 25th ultimo, after appropriate religious services at the house, her remains were followed by a large concourse of people to the McQuary cemetery where they were temporarily interred. Besides her husband and four children, her parents, a brother and sister, many friends mourn her loss, but "not as those who have no hope."

"They who die in Christ are blessed"—at least some of them. Sweetly with their God they rest, And their souls are being blessed; So be ours the faith that saveth, Hope that gives us trial braveth, Love that to the end endureth, And, through Christ the crown secureth."—B. K.

A New Dog Ordinance. The city council met in special session Thursday night to consider the burning problem of the hour—the great dog question. Action was taken to dispense with canines altogether, but we rather incline to the belief that an ordinance containing the provisions of the following would be about the proper thing:

Be it ordained by the Mayor and Councilmen of the city of Salina. SEC. 1. That all persons living within the corporate limits of the city of Salina are hereby required to keep at least seven dogs, two male and five female, and to give them the freedom of the city.

SEC. 2. It shall be unlawful for any person or persons to muzzle, chain, confine or restrain any dog from running at large.

SEC. 3. The mayor is hereby empowered and commanded to appoint seventeen policemen, whose duty it shall be to look after the welfare and comfort of all dogs residing in this city or straying this way.

SEC. 4. The sum of \$5,000 is hereby appropriated from the general fund of the city treasury to construct and maintain a hospital to care for diseased dogs and those dogs disabled in fighting.

SEC. 5. Any person or persons violating any of the provisions of this ordinance will be guilty of a felony, and on conviction, may be fined in any sum not exceeding \$1000, or less than \$100; or transported to Topolobampo for life.

SEC. 6. This ordinance shall take effect and be in force from and after the completion of the Salina electric railway.

A Terrible Accident. G. B. Donmyer, better known as "Gabe," who lives just east of the Saline bridge, near New Cambria, met with a most terrible accident last Saturday, which nearly cost him his life. He was coming to town in his cart, and just behind him was one of his heavy farm teams, driven by a boy who was working for him. They intended to take home a load of chopped feed for their stock, but just as they crossed the Saline bridge, the team took fright at a fire along the railroad, and the boy, seeing he could not hold them, called to Mr. Donmyer to get out of the way. Hearing the noise, Gabe turned to see what was wrong, and just as he did so, the team was upon him. The end of the tongue struck him on the side of the face, and team and wagon passed entirely over him, destroying the cart, and nearly killing its occupant. It seems the team was stopped soon after passing over Mr. Donmyer, and assistance soon arrived. They got him to his home not far away, and medical aid summoned. An examination proved that his lower jaw was broken on either side, and his face torn open, and tongue mashed to a jelly. A part of the jaw bone was missing, and could not be found. Several ribs were broken, and he was terribly bruised all over his body, but whether any serious internal injuries were received has not yet been determined. Dr. Thompson, of New Cambria, and Crowley of Salina, have charge of the case, and he is doing as well as could be expected, but it will be at the least weeks before he is again himself. The manner in which the flesh was torn and bones broken on each side of the face, made his jaw hard to set, the muscles of the face and neck pulling it out of place. Food is given him through a tube, and he is unable to talk, but the physicians say they apprehend no serious trouble, but hope in time, to again see him a well man. He is 23 years old but a very healthy, strong person, and will improve rapidly, if no serious complications interfere.

Almost a Bad Fire. On Wednesday morning a short time before school was called at the Second Ward School the whole building was suddenly filled with blinding smoke, driving everybody out of the building. Happily most of the children were playing out of doors or a frightful panic would have ensued, and many might have been killed. The fire department responded and a few minutes hard work sufficed to extinguish the fire, which was caused by some defective construction about the furnace. School will open again not later than Monday.

Fagot Party. There will be a fagot party this evening at the home of Mrs. M. D. Teague. The program will consist of stories, told by the light of fagots, which are furnished by the story tellers. A number of Salina's best speakers have promised to bring fagots to burn and stories to tell. Spectators are invited. Admission 15¢. No extra charge for refreshments. This will be a most unique and interesting entertainment.

LETTERS TO A FRIEND. TO MY VERY DEAR FRIEND, E. F. CHITENDEN

Thou art gone from us perhaps for ever. I could not wish thee to sever. Now may angels guard thee in thy new life, Thy pathway be free from envy and strife. In the realms of bliss again may we meet And renew our friendship joyful and sweet. True friendship is not the growth of a year, But each cycle of time makes it more dear. The dim future shows not a misty veil, Thy presence ever a charm of delight, The firm future shows not a misty veil, Thy presence ever a charm of delight.

Mayhap our friendship may not renew. I have arrived at your journey's end at last. Methinks I see you at your first parting; So full of joy, so full of gladness, that I thought, And now great rejoicing greet thy sight. Where you become the lion of the day Then in church assembled preach and pray. Now a whilper, "was he really a wife?" With I had a partner for life, so handsome, open hearted, no minister. Fair, patient, author and saint. Far in the mystic realms of space to soar. Teaching us our Creator to adore. That morality, truth and faith the best. To gain eternal joy among the blest. (patin, Thou though our earthly life be fraught with pain, We hope in heaven a better life to gain.

Now preaching. Ten teaching. Now with heralds, Saving souls; Ever free. Full of grace. Never cold. Ever kind. Kind ever. Then cheer. Joyful talk. When we walk. Part in pain. Meet again. Friends to make. Sit to shake. Girls to tease. Strive to please. Right in press. Working ever. Cries to cheer. Always smart. Cries to cheer. Now learning. Ever just. One to trust. Like learning. When pleasing. Voice quite clear. Joy to hear. In truth, justice and right. I could not wish thee to sever. Now may angels guard thee in thy new life, Thy pathway be free from envy and strife. In the realms of bliss again may we meet And renew our friendship joyful and sweet. True friendship is not the growth of a year, But each cycle of time makes it more dear. The dim future shows not a misty veil, Thy presence ever a charm of delight, The firm future shows not a misty veil, Thy presence ever a charm of delight.
